PROFILE SUMMARY

Data and analytics professional with 4+ years at Amazon building production-grade reporting pipelines, generating executive KPI insights, and conducting end-to-end statistical analysis - backed by a Great Lakes PGPM in Finance, with hands-on experience in Python, SQL, regression modelling, and hypothesis testing

PROFESSIONAL EXPERIENCE

Software Support Engineer – II | Amazon India Pvt. Ltd | Oct 2022 - Apr 2025

- Built a unified feature performance dashboard for Books Detail Page, **reducing per-issue investigation time by ~10 minutes across 10–15 monthly anomalies**, replacing fragmented manual lookups that enabled faster detection and triage of customer-facing issues
- Owned Monthly Technical Review (MTR) reporting for senior leadership - extracting and aggregating raw data from compliance and risk portals into a **consolidated KPI dashboard, enabling leadership to track performance trends and take targeted corrective action monthly**
- Investigated incoming ticket data, identified that **70% of weekly alerts were false positives** through pattern analysis, and drove a cross-functional alarm redesign, reducing operational noise by **60%** through evidence-based threshold reconfiguration
- Conducted infrastructure cost analysis identifying redundant pipeline dependencies, presented findings to leadership, and drove a consolidation and deprecation program delivering **50% reduction in monthly AWS costs** with zero service disruption

Device Associate | Amazon India Pvt. Ltd | Mar 2021 - Oct 2022

- Analyzed user experience data across Echo, Fire TV, and Tablet launches to define **30+ targeted test scenarios**, reducing pre-release defects by **~25%** and directly improving product quality at delivery
- Established data-backed thermal benchmarking standards for Amazon WebView APK, **creating measurable, repeatable launch-readiness criteria** that eliminated guesswork from hardware reliability validation at scale

PROJECTS

- Restaurant Success Analytics - Yelp Dataset:** Performed end-to-end EDA and inferential analysis on a **1.6M+ review dataset** - running hypothesis testing, OLS regression, and confidence interval estimation to identify statistically significant drivers of restaurant ratings across price, location, and user behavior (**View: [Project](#)**)
- Social media & Productivity - Perception vs Reality:** Quantified a productivity perception gap across demographic **segments using correlation analysis and regression modelling** - validating and extending claims from a published Economic Times article using regression and hypothesis testing across 13,000+ survey responses (**View: [Project](#)**)
