PROFILE SUMMARY

Product-minded professional with **4+ years at Amazon** driving user-facing operational improvements, data-informed product decisions, and cross-functional delivery - backed by a Great Lakes PGPM in Finance, with hands-on experience in product analytics, go-to-market strategy, and 0-to-1 product development

PROFESSIONAL EXPERIENCE

Software Support Engineer – II | Amazon India Pvt. Ltd | Oct 2022 - Apr 2025

- Directed the end-to-end launch of India's eBook "**Add to eBook Cart**" feature across engineering and QA teams within a **4-week sprint**, ensuring the regional digital checkout flow deployed defect-free and on schedule
- Identified a UX inconsistency in the Books Detail Page format selection layout, proposed and drove the migration of the media matrix swatch to a dedicated right-side zone, resulting in a **15% increase in format selection click-through rates**
- Identified a systemic user pain point where **70% of weekly engineering alerts were noise**, diagnosed root cause through data analysis, and drove a cross-functional fix that reduced operational workload by **60%**, freeing the team to focus on customer-impacting issues
- Defined and owned product performance metrics for Books Detail Page, building a **unified dashboard consolidating feature-level KPIs** for senior leadership, enabling faster identification of customer-facing anomalies and data-driven corrective action

Device Associate | Amazon India Pvt. Ltd | Mar 2021 - Oct 2022

- Translated user experience feedback into **30+ targeted test scenarios**, reducing pre-release defects by **~25%** across Amazon Echo, Fire TV, and Tablet launches, directly improving product quality at the point of customer delivery
- Defined launch-readiness benchmarks for Amazon WebView APK through a thermal validation framework, **establishing measurable success criteria** that prevented critical hardware failures at scale

PROJECTS

- AI-Powered Equity Research & Forensic Terminal (Personal Development):** Built a 0-to-1 product combining automated data pipelines and LLM synthesis, **reducing stock analysis from 2+ hours to under 30 seconds**, designed, developed, and deployed end-to-end with zero ongoing operational costs
- Apollo 24/7 - Market Expansion White-Paper Study:** Led primary research with 150+ users to identify healthcare access gaps among India's college students, translating findings into a **hybrid go-to-market strategy** with student-specific pricing bundles and campus-based service model recommendations
