PROFILE SUMMARY

Program and delivery professional with **4+ years of experience at Amazon** driving cross-functional release programs and infrastructure initiatives. Proven track record of leveraging data-driven execution to deliver measurable improvements in cost, efficiency, and reliability at scale

PROFESSIONAL EXPERIENCE

Software Support Engineer – II | Amazon India Pvt. Ltd | Oct 2022 - Apr 2025

- Owned end-to-end release program across 4+ engineering teams, **doubling release frequency from 1 to 2 per week** and executing **200+ zero-defect deployments** - achieved by identifying pipeline gaps, contributing integration tests, and building a tool that auto-documented releases into Atlassian Wiki
- Identified root-cause inefficiencies through a current-state process audit and deployed AI-driven automation (SmartTTBots) to streamline issue triage, **reducing operational workload by 60%** and freeing team bandwidth for higher-priority delivery
- Built a unified performance dashboard and owned MTR reporting for senior leadership across 4 organizations for 12+ months, **consolidating cross-functional metrics into a single executive view** and enabling targeted corrective action on org-wide goals
- Led infrastructure consolidation program identifying system redundancies, delivering **50% reduction in monthly AWS costs** with zero disruption to ongoing operations throughout the transition
- Managed closure of **500+ operational and security risks** across Books Detail Page, designing automated remediation pipelines that eliminated 48+ recurring compliance vulnerabilities across 7 host classes

Device Associate | Amazon India Pvt. Ltd | Mar 2021 - Oct 2022

- Drove process optimization by identifying and automating redundant test cases, **reducing release cycle time by 12%** and improving team bandwidth for higher-priority activities
- Standardized release workflows and stakeholder reporting formats as primary driver of the initiative, **reducing pre-release defects by ~15%** across Amazon Echo, Fire TV, and Tablet launches

PROJECTS

- AI-Powered Equity Research & Forensic Terminal (Personal Development):** Architected a hybrid data pipeline with LLM synthesis, **reducing stock analysis from 2+ hours to under 30 seconds** - demonstrating end-to-end program ownership from design to deployment with zero ongoing operational costs
- Apollo 24/7 - Market Expansion White-Paper Study:** Led a 150+ user mixed-methods study identifying adoption gaps in campus healthcare, delivering a **scalable go-to-market strategy** with prioritized recommendations for India's 40M+ student segment
